

Annual report Draft

**“May be there is a road ahead of it,
May be there is a new world down th road,
Walking forth is the only plight”**

It is my proud privilege to share with you the Annual Safar of Drishti. Every school talks- boasts about the board results which remain more or less the same with minor differences. What is important is what you become during your safar from Balvatika to X - XII not just in terms of your Summative Academic result but also in terms of your social, ethical, emotional capacities, dispositions and capabilities. Ladies and gentlemen, our toppers Harleen Kaur Grewal Of X and Simrat Kaur of XII joined Drishti in Balvatika and are a testimony to our well researched policies and strong ethics which aim at providing a learning environment where each child dares to dream life of purpose. We are an institution where the individual potential of each child is nurtured through meaningfully designed experiences.

The playgrounds are always a happy place for children and in this joyful environment, Drishtians are trained by expert coaches. The well designed Sports & Yoga Curriculum ensures the physical fitness of children and also trains them in various Games.

Our sports champions have bagged as many as 91 Gold Medals, 55 Silver and 40 Bronze Medals in various games like Football, Chess, Badminton, Shooting, Archery and Karate at District, State and National levels. It is worth sharing that our shooting champion Vishvaroop Singh Grewal of Grade X brought laurels to school by reaching the National

Level in the U-17 category. I feel highly elated to share that Prachi Jain of XII Sci. bagged Gold medal both in the 6th International Karate Championship (Girls) held in Kolkata and 4th GSKDI International Open Karate Championship (Girls) held in (Kotla Vijay Bhaskar Reddy Stadium), Hyderabad. She is also an International Level Martial Arts Champion.

NEP emphasises that education is the greatest tool for achieving social justice and equality which has implications on development of an inclusive community and society at large. This is followed in letter and spirit at Drishti where equal opportunities are given to all including children with special needs. They are also taken to the ground to hone their skills and it fills me with immense pride as they brought laurels for themselves and their Alma mater at District and State Level in the 23rd Special Olympics with 21 Gold, 12 Silver and 5 Bronze Medals.

Under the project 'Ambition to Fly', the children with special abilities are given training in various skills like Candle & Chocolate Making and Baking. The students with the support of their teachers have created beautiful, eco-friendly Diyas made from Cow Dung. It is also heartening that the school canteen is now run by our Inclusive Wing children. We associate with Inclusive Wing Alumni also who are involved with

I take this opportunity to thank all the parents who appreciate and encourage these children by buying these products made with love by

them.

The Class presentations, Field trips and morning assemblies provide a platform for our young gems to hone their communication skills and enhance their self confidence.

As a result our students also excel well in Inter School Co-Curricular Activities.

8	Hindi Declamation	Anhad Kaur	Third
9	Scavenger Hunt	Jasnoor Kaur	Third

We proudly announce of the JW commencement of NCC training under 19 Punjab Battallion in Drishti.

Drishtians are the idea children, fueled by imagination and innovation. It is shareworthy that the training we provide to our students in Robotics & Artificial Intelligence has helped us win prestigious Awards at eminent platforms. Dear audience, With a handful of students Drishti qualified

amongst top 100 schools @75th Youth Ideathon, organised by Think Startup in association with CBSE. 2 teacher mentors received the Best Mentor Award and Team Drishti received the School of Innovation Award among 7000 schools that competed in the event nationally. In the recently declared Youth Ideathon, our 6 teams have qualified for top 1000.

Further at Satyam Innovation Fest, the idea of 2 of our teams was highly appreciated. It fills me with immense pride to share with you all one of our team's ideas reached the top 10 and with the support of has been registered as a Company by the name of Cropyfyer. The Head of the Incubator Cell approbated seed grant, mentorship and technical support to transform the unique idea of Drishtians into reality. (There were four students each, (Amreen Kaur , Jotvir Singh, Harcharankamal Singh, Harsukhman Singh) & (Chinmay Jagga, Gurkiranpreet Singh, Harnoor Singh, Arnav Jain) proposed their ideas which were highly appreciated at and selected for incubation at Desh Bhagat University.)

Each child travels his/her own safar carefully planned out by the well trained teachers who follow the principle of teach less to teach more.

The teachers have undergone more than 2000 man hours of training by renowned educationists and trainers from CBSE to enhance their skills and knowledge.

Our teachers presented papers at the CBSE National Conferences. This research and scientific orientation of teachers is something that impacts the students to a large extent.

Kirat Karo, Naam Japo & Vand Chako are the principles of Gurubani that form the essence of life. We give the students the opportunities where in they ingrain these principles through experience. The Community Connect program of Library on Wheels is one such initiative where our staff and students volunteer to make the world of books accessible to the villagers right at their doorstep. Dear audience, it is worth sharing that it is done every Saturday after school. We believe in sharing the resources and under the Vidyanjali program we have collaborated with Govt. primary School, Narangwal where we are supporting the Primary School in Academic and Co-curricular Activities. Drishti has pioneered in taking out rallies and it is more encouraging that many organisations including some schools have joined hands with us to carry forward the echo created by our foot step. Such initiatives would not have been possible without the support of parents who have come forward in large numbers to support. Dear parents, with immense gratitude , I thank each one of you for being there to lift us higher in our endeavours. Your encouragement is a driving force. The facts & figures of this annual report are a testament to the creativity, innovation, and determination

that define Drishti. Let us continue to author our future with the ink of innovation and the canvas of collaboration. Together, we are committed to paint a brighter tomorrow.
